A goal oriented self-starter seeking steady employment as a hybrid UI / UX engineer.
Skilled and innovative. Adaptable and eager to learn.

Education

Vancouver College of Art and Design   GRADUATED IN 2014

Bachelors EQ program with a major in ux / graphic design and development. Technically trained in Adobe Software.

Work Experience

Croquet Corporation   SEPTEMBER 2020 - PRESENT

UX Engineer

A position where I am the sole user experience and product developer for a small start up. I am responsible for bridging the gap between departments, conceptually and technically. I provide client research, justification, story boards and prototyping presentations as well as technically executing mockups. I organize client feedback into actionable items to improve the daily usage of the new SaaS, website and demo applications.

Coppertree Analytics   JULY 2018 - SEPTEMBER 2020

UI/ UX Developer

A position where I managed and created mockups for new and existing features on the SaaS. My role was to provide customer solutions using industry standard technology and techniques.

Forever Yours   JANUARY 2018 - JULY 2018 (contract)

Web Development Manager

My position was to ensure the quality, control and security over the eCommerce platform used by this company.

Juice Group   JANUARY 2017 - FEBRUARY 2018 (contract)

Front End Developer / Designer

My day to day tasks included taking any client work available to Juice Group for any website related needs, including design, prototyping, mockups, and marketing materials.

Publications & Volunteer Experience

Published in the Programming 2022 Conference, https://2022.programming-conference.org/

An Experiment in Live Collaborative Programming on the Croquet Shared Experience Platform.

Modern Dog / Modern Cat Magazine

Two full page spread advertisements for the organic pet health care brand Vetisse.

Surrey Memorial Hospital

Designed a large scale window decal installation to support their new youth center program.

PETA Magazine

An anti animal cruelty advertisement published on the back of PETA's Animal Life Magazine.
